💧 DRINKING WATER NOTICE: PROBLEM CORRECTED

Boil Water Advisory Lifted

Este informe contiene información muy importante sobre su agua de beber. Tradúzcalo o hable con alguien que lo entienda bien.

📋 Status Update

The **Center Township water Authority** has officially **lifted the Boil Water Advisory** for all affected customers, effective **11/4/2026**.

🔍 What Happened & How It Was Resolved

On **11/2/2026**, customers were notified of a boil water advisory due to **a positive Coliform test which included e. coli sample at 1 location in the system**.
In accordance with PA DEP regulations, we conducted consecutive rounds of water quality testing. We are pleased to report that **all test samples have passed and confirmed the water is safe, clean, and free of bacteria.** With the receipt of these clean test results, the PA DEP has granted official approval to lift the advisory.

The Authority would like to express its apology for this inconvenience to all our effected customers. This incident occurred at only the location previously mentioned, which was the Township Road Garage on Wilhelm Drive and no other sample within the Township has shown any signs of Coliform including E. Coli presence, therefore we do feel this was an isolated incident. Please feel free to contact our offices with any further questions.
